

PIPAT PHUENGPHAINGAM

PROFILE

As a CFA Level 1 holder, I am passionate about finance and have developed a strong interest in fundamental valuation, financial modeling, and mergers and acquisitions. I am currently seeking a new opportunity in the finance industry where I can leverage my skills and experiences to drive success and growth for the company.

WORK EXPERIENCES

Process Control Engineer, PTT Global Chemical PLC.

July 2021 - Present

- Applied Base layer & Advance Process Control applications in petrochemical processes (Aromatics and Polymer plant) to optimize the operation.
- Provided automated solutions as special tools to the production team, with the goal of standardizing action plans across all shifts and implementing best practices in the process.
- Developed a performance dashboard for heat exchangers using PowerBI.

Process Engineer, PTT Global Chemical PLC.

June 2019 - July 2019

- Learned about the technical processes involved in refining crude oil into various petrochemical products in a refinery plant.
- Conducted a feasibility study to estimate the potential benefits of improving the efficiency of the fin-fan heat exchanger by adding an inlet bell.

EDUCATION

Kasetsart University, Thailand

August 2016 - April 2020

Bachelor of Chemical Engineer with GPA 3.50 (First class honors)
