---

## SUMMARY

Passionate about learning mathematics and analytical skill. Completed the FMVA course, which is about building financial models and valuing business. Skilled in communication, teamwork and adaptability. Seeking a challenging position in finance.

## EXPERIENCES

### FMVA Online Learning

**Nov 2020 - May 2021**

- **Financial Modeling** - Built a multi-year forecast and dynamically linked 3-statement model (income statement, balance sheet and cash flow statement)
- **Valuation** - Valued a company using comparable company analysis, precedent transactions and DCF
- **Financial Analysis** - Analyzed past year performance using profitability ratio, efficiency ratio, liquidity ratio and leverage ratio.
- **Excel for Finance** - Used VLOOKUP and CHOOSE function to perform scenario analysis, Used OFFSET function to select a cell from reference cells, Used Pivot Table to manage collected data.

### Mathematics Teaching Practice

**May 2019 - Mar 2020**

- **Classroom Management** - Taught a class of 40 students and focused on building healthy relationship to create a list of rules in the class together.
- **Coordinated Teaching** - Built thorough teaching models and developed a mathematics game with colleagues.
- **Assessment Development** - Assembled student's learning ability and designed assessment rubric.

### Mathematics Camp

**Nov 2017**

- **Activities Preparation** - Helped a creator team to create applied mathematics activities that link up to real life and demonstrated to the other teams to get the feedback for improvement.
- **Leader Team** - Led a team of 42 people to communicate progress and assignments to team members.

## EDUCATION

### Srinakarinwirot University, Bangkok TH

**Aug 2015 - Mar 2020**

Bachelor of Education in Mathematics, GPA 3.74 (First - Class Honors)
